Second Section

Why PayMint?

At PayMint, we believe in keeping things simple:
simple onboarding, simple installation, simple setup, and simple pricing.

A Complete Solution — No Hidden Costs

PayMint is more than a checkout system. You get a powerful reporting engine with advanced filters, staff and role management, customer profiles and loyalty programs, discounts, raw material and stock tracking, and much more—all included in one fixed monthly plan.

Designed for Real Users

PayMint is built for business owners, cashiers, and managers—not tech experts. We worked closely with real users to design an intuitive experience that minimizes training time. From login to first sale in **under 10 minutes**.

Enterprise-Grade Security

Your data is fully encrypted, securely stored, and automatically archived. We've invested heavily in top-tier security standards to ensure your business information is protected at all times.

Multi-Branch Management

Run one store or many—PayMint supports multiple merged branches or separate stores under one unified dashboard.

Manage staff, products, sales, and performance across all locations from a single control panel.

Third Section

What Do You Get for \$20 / Month?

Point of Sale

Create products and categories, process sales quickly and easily.

Inventory Management

Track stock levels, manage raw materials, and receive low-stock alerts.

Staff Management

Add unlimited staff, assign roles, and track shifts and performance.
